

General Conclusion

B/3 In the opinion of the members of the B. team the interrogations were successful. While it appeared obvious that some of subjects statements made under ~~these~~ ^{offensive} were inaccurate, misleading and possibly false - nevertheless, ^{it appears that} sufficient new information was obtained to re-establish and re-open a case that had reached ^{an} obvious impasse.

Furthermore based upon the interrogations in the instant case, it is ^{new} the absolute conclusion of the B. team that the ~~these~~ ^{new} techniques are extremely valuable and ^{will work!!} ~~will~~ the money and time spent in the ^{exploration} ~~exploration~~ and development of ^{these} ~~ST~~ techniques ^{is the admittedly a vast deal more} ~~even remains to be done.~~

Specific Comments

(1) Members of the B. team, while agreeing that the above interrogations were successful ^{are} ~~are~~ not in complete agreement as to

(A) The effectiveness of the H techniques ^{used.}

(B) Whether or not H technique contributed ^{much} ~~a great deal~~ or little to the results obtained.

(2) Members of the B team agree that further work ^{research and experimentation} is necessary in perfection of the H techniques along with ~~via~~ ^{drugs.}

B/3
(3) Members of the B team agree that it is essential that ^{hydro spray} ~~hydro-spray~~ instruments and various types of ampules be purchased or contracted for immediately.

(4) Members of the B team agree that field equipment in the follow categories is poor and new ^{should} ~~top~~ grade equipment ^{should} be sent overseas at once.

(A) Recorders, microphones etc.

(B) Photographic equipment, all types including infra-red.

(C) Medical equipment for B operations (this should be assembled,

packaged, sent out from hdqts. so that B team members would not have to carry "unusual" equipment with them. This should include drugs, needles, medical instruments, hypro sprays, ampules for spray etc).

(D) "Special tool kits"- These kits should contain special and standard tools for repairing, assembling etc. the above setout equipment.

(5) Members of the B team agree that until the above equipment is sent out -

(A) Either ^{that} B team should have exact knowledge of the field equipment available ^(prior departure) or

(B) Light portable equipment should be forwarded ahead of or taken with the B team on future operations.

(6) Members of the B team agree that if possible a longer time should be allowed between request for B team work and sending a B team into the field.

(7) Members of the B team agree that before a B team leaves hdqts., the field office of the agency should have ~~it~~ come to some more or less definite conclusions as to the ultimate disposition of any individual to be interrogated by the B team. It should always be born in mind that considerable embarrassment ^{might} result if it were known that this agency was supporting this type of activity.

(8) Members of the B team agree that, if humanly possible, only trusted agency personnel participation in B cases. While it is recognized that this agency may be inadequately ^(staffed) ~~staffed~~ in many locations, the use of ~~merely~~ for merely hired help in B operations should be kept at the absolute minimum.

(9) Members of the B team agree that under no circumstances should any future B subject be threatened with the use of drugs, truth serums etc. if

the subject fails to talk by other known methods. B team will always attempt to find and use a cover for [REDACTED] techniques. B/3
